Turnings
A Mobile App for Wood Turners

Turnings is a mobile database system for wood turners, instructors, symposium attendees and anyone wanting to document their approach to the hobby of wood turning.

Turnings is designed to run on iPhone, iPod Touch and iPad/iPad Mini. Use it in the shop, at club meetings, symposiums, and in the classroom. It requires FileMaker Go 12, a FREE app available in the App Store. The *Turnings* database (uses FileMaker Go 12) is available from High Street Software, LLC (www.highstreetsoftware.com) and is also FREE.

Features:
Turnings is used to document and keep a record of turning projects. They can be your own, your students or of other turners. Keep notes on sessions you attend at symposiums or demonstrations at club meetings. Enter as much or as little information as you prefer.

User Libraries – All With a Free Text Quick Search – Build Your Own!
> Turners – yourself, demonstrators, students, club members, symposium sessions
> Turning Categories – Bowls, Candlesticks, Goblets, Pens, Segmented
> Tools – Lathes, Gouges, Scrapers, Parting Tools
